

## AmCad BioMed Corporation

### Report on the implementation of corporate social responsibility in fiscal year 2021

Item	Execution Scenarios
1	The Company has set up a stakeholder area on its website in the hope that stakeholders can understand their reasonable expectations and needs through appropriate communication, and that the Company can respond appropriately to their concerns about important corporate social responsibility issues.
2	The Company has set up an employee complaint area on its website to provide employees with the right to obtain information and express their opinions on the Company's management activities and decisions.
3	The Company has established a customer complaint area through telephone, email, and its website to provide consumers with a transparent and effective consumer complaint procedure for fair and prompt handling of consumer complaints regarding the Company's products and services.
4	We are in the medical software development industry, which has a low impact on the environment at the end of each year.
5	The Company implements waste separation on a regular basis and recycles paper and paper mills at the end of each year.
6	Our Yangmei plant, which we lease from Meiwuhua, has its own certified wastewater treatment facilities to avoid polluting water resources.
7	We have signed labor contracts with all of our employees, which comply with human rights, gender equality, work rights and welfare laws and regulations.
8	We strictly implement the quality management system and comply with ISO 13485 set by the International Organization for Standardization and PIC/GMP regulations set by the health authorities in Taiwan.
9	"Anchor Microscope®" was awarded the 29th Taiwan Excellence Award in the category of "Computer & Software Excellence" by the Ministry of Economic Affairs, and it is the third smart medical material to be recognized by the National Excellence Award, following Anchor Armor Scout® and Anchor Stop Scout®.
10	The Company has established personal information protection management points and complies with the Personal Information Protection Act and other relevant laws and regulations to respect consumers' privacy and protect personal information provided by consumers.
11	From January to December 2021, we will sponsor the "Xinpu Love" student club learning program at Hsinchu County Hsinpu National High School.
12	From January to December 2021, we sponsored the Association for the Advancement of Industry and Commerce of the Republic of China (AICIC).
13	In February 2021, we sponsored the use of Anchor's UO for obstructive sleep apnea testing for the health care workers at Luenan Health Examination Center to protect the health of busy health care workers.
14	In March 2021, sponsored the annual meeting of the Society of Endocrinologists, the "Royal Senior Diet", to help physicians improve their physical strength to fight against the epidemic.
15	In March 2021, we invited the former Chairman of the Sleep Society, Elaine Chen, to hold a sleep health seminar at Acer's headquarters in Hsichih to raise the awareness of our employees about their sleep health.
16	In April, 2021, Acer used UO to conduct obstructive sleep apnea testing for healthcare workers at the Hsinchu Cathay Health Examination Center to protect the health of busy healthcare workers.

17	In May, 2021, the Medical Council sponsored the "2021 National Healthcare Quality Award Key Forum on Smart Healthcare Series [Opening up Infinite Possibilities in Healthcare - How AI can effectively assist in the implementation of smart healthcare]" advertising and video exposure, eliminating the environmental impact of print advertising and booth materials.
18	In May 2021, we sponsored NTU Hospital to conduct a study on sleep apnea. From September to December, we assisted the Health Screening Center in testing and screening out medium to high-risk sleep apnea subjects, and assisted in referrals or provided health education information.
19	July 2021, sponsored the Ten Outstanding Foundation.
20	In September 2021, donated the "Diamond Love" painting to the private Kaohsiung Medical University.
21	In October 2021, sponsored the Federation of Endocrinology of the Five Hospitals of Lin Kou Chang Gung Hospital to send portable dry hand sanitizer for doctors to clean their hands at any time to fight against the epidemic.
22	In October 2021, we sponsored the Taiwan Women Directors Association to cultivate and connect more women leaders of the new era to pass on their experiences and role models and to exert a sustainable influence.
23	In December, 2021, Anchor A-Detective UT was the first in Taiwan to use SoftKey instead of USB flash drives in the General Hospital of the Third Army, effectively reducing 3C waste and improving program execution efficiency.
24	In December 2021, sponsored the Wu Sanlian Award Foundation.
25	In December, 2021, sponsored the Taipei Chinese Women's Association.
